The change proposed and ultimately adopted in GA-216-2016 made use of incorrect language when describing the appropriate studs. Although the intention was to support the use of -30 and -33 studs rather than the use of -20EQ studs with abuse resistant or impact resistant panels, the language contained in section 2.2.12.4 used the term □base metal thickness□ to communicate the recommendation.

□And however paradoxical it may seem today, the □Grail mood□ is in the fullest sense to be found in Russia. And the future role that Russia will play in the sixth post-Atlantean epoch... rests firmly upon this unconquerable □Grail mood□ in the Russian people.□ □ Rudolf Steiner Although Eastern Europe has been part of the Christian world for more than a thousand years, its spiritual identity remains a mystery. This mystery, says Sergei Prokofieff, can only fully be solved by looking behind external events and seeking spiritual □ meta-historical □ dimensions of reality. In illuminating the maya of outer history, Prokofieff reveals the forces that have been at work to hinder the progress of mankind: the materialistic Brotherhoods of the West and the occult aspects of both Jesuitism and Bolshevism. These adversary groups have created a □karma of materialism□, that the eastern Slavic peoples have taken upon themselves out of their □exalted willingness for sacrifice□. Prokofieff shows how, from the earliest times, the future □conscience of humanity□ flowed from hidden mystery centres in Hibernia, to the eastern Slavic peoples. As a result, qualities of □compassion, patience and willingness for sacrifice□ developed in their souls, creating a truly Christian □Grail mood□. Despite incalculable suffering □ from the persecutions of the Mongol hordes to the Bolshevik experiment of the last century □ this quality has become an unconquerable force. Will humanity be able to use the present opportunity granted by this sacrifice to fulfil the primary purposes of the present cultural epoch? Can the future mysteries of the Holy Grail be fulfilled? In this momentous work, breathtaking in its scope and detail, the author attempts a truly esoteric approach, penetrating to the spiritual wellsprings of Eastern Europe in the light of Rudolf Steiner□s research.
