Argus The Almighty Attack Speed and Critical Build. Reminder: Whatever build it is, Argus is weak at early game, since his strongest traits rely on his normal attacks, which means you gotta farm fast and build the needed items immediately. Also this build will require you to be careful at early, since lifesteal is not the first priority.

How rare spawning works on Argus. Rare spawns on Argus are either up or down: • If the rare is up, it will respawn almost immediately (i.e. within 2 minutes of a kill) • If a rare is down, it will not spawn at all. It is suggested that the rare spawns on Argus change every 4 hours. The exception to the "4 hour rule" are rares that spawn due to a world quest.

The Oil Trading Manual (OTM) provides a unique and comprehensive reference source to the latest developments in the structure and conduct of the international oil markets including: Physical characteristics and refining Oil pricing arrangements Physical oil markets Forward and futures contracts Options and swaps Operations and logistics Accounting and taxation Controlling financial risk Legal and regulatory control OTM provides a unique and comprehensive reference source to the structure and conduct of the international oil markets. The manual covers all the major oil trading instruments and their applications; the trading centres, contracts, uses and users of both the physical and the terminal oil markets, and their administrative, management, tax, and accounting implications. It also includes vital information on changes to the international legal and regulatory structures. The manual is divided into three complementary parts; Characteristics An introduction to oil and oil trading, and includes material on the nature of oil as a commodity, refinery processes and the different ways in which oil is priced. Instruments and markets Deals with the oil market itself taking each segment in turn, explaining how the various trading instruments work and describing the markets

that have evolved to trade them. It starts with the physical oil markets, moving on to forward and futures markets, followed by options and swaps. Administration Covers the essential 'back-room' activities without which oil trading could not continue. It includes practical material on operations and logistics, credit control, accounting, taxation, contracts and regulation, and controlling financial risk, providing a unique guide to the subject. Compiled from the contributions of a range of internationally respected professionals, it is the indispensable practical companion for all those involved with trading in this complex commodity.
