This book is a systematic and constructive treatment of a number of traditional issues at the foundation of ethics, the possibility and nature of moral knowledge, the relationship between the moral point of view and a scientific or naturalistic world view, the nature of moral value and obligation, and the role of morality in a person's rational life plan.

It then identifies specific characteristics that moral beliefs must have for the people who possess them to be regarded as trustworthy.

Morality and ethics are at the heart of business practice, but the concepts themselves are usually assumed, rather than investigated. The chapters in this book refuse such easy answers, and force the reader to confront their own assumptions about ethics, provoking conclusions that are both disturbing and exciting. Martin Parker, University of Leicester, UK This timely book provides a collection of critical explorations and discussions of managerial ethics and their moral foundations. It is concerned with theoretical, conceptual and practical matters, and thus provides an open and broad approach to a very dense field of enquiry. Ethics and Organizational Practice

Challenges established theory in management studies and, in particular, provides a post-foundational argument to conventional business ethics. The contributors cover topics from corporate social responsibility and individual morality to primatology, psychopathology and corruption. They provide a multi-disciplinary and multi-dimensional exploration of managerial ethics and its moral foundation, presenting a critical understanding of the conditions of ethics in modern organizations. The book presents a philosophically informed critique of simplified notions of managerial and organizational ethics, making it an excellent resource for postgraduate students and scholars of business ethics, critical management, corporate social responsibility, international business and organizational psychology.

Moral Foundations is the last book of Alexander Skutch's century-long life. It is, in many respects, the capstone work of Dr. Skutch's long and fruitful life. It is an ideal introduction to the pleasures of moral philosophy and offers clear and stimulating answers to many of the perennial questions that all of us face in our own lives.

Presents a groundbreaking investigation into the origins of morality at the core of religion and politics, offering scholarly insight into the motivations behind cultural clashes that are polarizing America.

The Handbook of Business Ethics: Philosophical Foundations is a standard interdisciplinary reference handbook in the field of business ethics. Articles by notable philosophers and economists examine fundamental concepts, theories and questions of business ethics: Are morality and self-interest compatible? What is meant by a just price? What did the Scholastic philosophers think about business? The handbook will cover the entire philosophical basis of business ethics. Articles range from historical positions such as Aristotelianism, Kantianism and Marxism to systematic issues like justice, religious issues, rights and globalisation or gender. The book is intended as a reference work for academics, students (esp. graduate), and professionals.

This book addresses current practices related to sustainable development, its challenges and the future. People belonging to different genders regardless of their age, social class and education should be equal as citizens and individuals, and identical in their rights and responsibilities. The business sector, authorities, societies and religious circles have the potential to play a fundamental role in curbing social ills and the degradation of the environment in this modern world. The authors of this book argue that without good governance, the status of a human being is unlikely to improve. They make the case that to achieve sustainability, government, society and the economy must ensure a platform for people to participate in decision-making and benefit from the rights they are accorded. By covering a range of perspectives across economic, social and moral life, the book will shed light on the problems and possible

Solutions to sustainable development and the triple bottom line, of people, planet and profit, under the umbrella of morals and divine law. This will be a useful guide for undergraduate and postgraduate students across multiple disciplines, such as economics, religious studies, business studies, political science, anthropology and sociology.

faces the urgent problem of determining what political and social conditions must be preserved in order to ensure a continuing thriving economy. "2 And the ethicist, we may add, can draw on all of those problems and quite a few more characteristic of situations when traditional communities struggle with the impact of sudden and unprecedented wealth as well as with a technological transformation of their society of singular proportions. Hong Kong is truly a society in transition, a society whose time is running short and which therefore cannot afford to wait long before it has to make decisive choices, choices also in ethics. The time factor which is so infamous in various ethical dilemmas applies here to the society as a whole; it may also account for some of its not just morally significant shortcomings. II. Ethics in a Cross-cultural Perspective The authors of this volume are scholars and researchers based in Hong 3 Kong who have been living and working in the territory for many years. They are not only representative of the increased research interest in ethical issues across the academic spectrum of Hong Kong universities, but also of the inter disciplinary approach which has become the hallmark of work in applied ethics. As is well documented, ethics research, at long last, has left behind its disciplinary confines and, even more so, the philosophical ivory tower and begun to permeate the full scope of the academic and scientific agenda.

Seumas Miller provides an exciting new philosophical theory of contemporary social institutions and the ethical challenges they confront.
