<p>A spectacular treehouse suspended above a lush forest. A cozy cabin perched on a mountainside. A small farm growing heirloom vegetables in the high desert. These are the extraordinary stories of the modern-day back-to-the-land-movement, a movement that embraces slow living, sustainability, and the value of doing things with your own two hands. Here are remarkable narratives, essential how-tos, and hundreds of breathtaking photographs from people who have embraced lives of adventure in wild places. Delivered in a handsome volume that inspires feelings of wanderlust, this book is a must-have for outdoor enthusiasts and anyone who has ever dreamed of escaping to a simpler way of life.</p>

<p>KILL THE BEAST, JOHN KILL IT - Meet twelve-year-old John Greber, who describes the dark clouds of daily life he, his mother, Ellie, and six-year-old sister, Marny, live under. The fear and loathing that exist within a home ruled by the iron fist of an abusive father is established on the very first page. It is impossible not to feel, in the pit of your stomach, the inevitable onslaught of catastrophe. Johns beast of a father is unpredictable and dangerous. He takes the storybook villain to a whole new level of greed and ignorance. The beast finally goes too far when he disappears, taking Marny with him. The search for her leads John and Ellie into the Land, a place they couldnt have imagined in their wildest dreams. (Think of Candyland crossed with Gregory Maguire's vision of Oz and youll have something of an idea.) Allen skillfully combines the everyday world with the fantastic, a seemingly seamless combination which reminds the reader of the very best of fantasy novels. Yet, after all of the tragedies and triumphs are said and done, Goneaway, Into the Land, will leave you with a feeling of hope and a yearning for more. <p>"Without vision the people perish." So wrote the poet William Blake. Lord Northbourne (1896-1982) was a man of exceptional and comprehensive vision, who diagnosed the sickness of modern society as stemming from the severance of its organic links with the wholeness of life. But like his better-known younger contemporary E. F. Schumacher (author of Small is Beautiful), whose work developed along very similar lines, Northbourne's occupation as a practicing organic farmer (he coined the term) was joined to a deep conviction that humanity does not live by bread alone, and that the fullness of life properly integral to human nature demands obedience to sacred law. Thus his vision of life came to embrace the interrelationship of God, humanity, and the soil as a unity presupposing a way of life in stark contrast to that of the myopic, mechanistic world he saw encroaching on all sides. And so, as it becomes increasingly evident that such a way of life stands to emperil our very future and that of the delicate ecosystem on which all life depends, it is time to re-examine the work of this pioneering thinker. In an age of specialization and fragmentation, we have much to learn from Northbourne, whose vision of what is required by a truly meaningful and sustainable society embraced religion, farming, the arts, the rural crafts, monetary form, and traditional metaphysics. Northbourne's later works, Religion in the Modern World and Looking Back on Progress, present his wider reflections on the Divine and human society, but always with the sensibility of a man who knows the soil, recalling in many ways the writings of Wendell Berry. He corresponded with Thomas Merton, as well as mountaineer and Tibetan Buddhist Marco Pallis (The Way and the Mountain), who introduced him to the school of perennialist writers. Northbourne translated René Guénon's The Reign of Quantity and the Signs of the Times, described by Huston Smith as one of the truly seminal books of the twentieth century, as well as Frithjof Schuon's Light on Ancient Worlds and Titus Burckhardt's Sacred Art in East and West. He was also an accomplished flower gardener and watercolorist, and a frequent contributor to the British periodical Studies in Comparative Religion, described by Schumacher as one of the two most important journals to read. Sophia Perennis is republishing all three of Northbourne's works, a fourth volume of uncollected essays and metaphysics, as well as the 23-volume Collected Writings of René Guénon, including The Reign of Quantity. Lord Northbourne (1896-1982) was a man of exceptional vision, who already in the 1940s diagnosed in detail the sickness of modern society as stemming from the severance of its organic links with the wholeness of life. A leading figure in the early organic farming movement, his writings profoundly affected such other pioneers as Sir Albert Howard, Rolf Gardiner, Ehrenfried Pfeiffer, and H. J. Massingham. His path led him on to a profound study of comparative religion, traditional metaphysics, and the science of symbols, which he employed in incisive observations on the character of modern society. His later writings exercised considerable influence on his younger contemporaries E. F. Schumacher and Thomas Merton, and in many ways anticipate the essays of Wendell Berry. The republication of this milestone ecological text will be followed by three volumes of Northbourne's later metaphysical and cultural writings. "A major text in the organic canon, too long out-of-print" - Philip Conford, The Origins of the Organic Movement "We have tried to conquer nature by force and by intellect. It now remains for us to try the way of love." - From the book (possibly for front cover, if not too long!)</p>
<p>The Hugo Award-winning author returns to the mythical world of Gilgamesh the King in this adventurous sequel: "An enthralling quest." —The Times (London) The warrior-king Gilgamesh—part man, part god—is not only larger than life; he is larger than death. Trapped in the Afterworld, a bizarre reality in which everyone who has ever died lives again . . . only to die again and again in endless succession, Gilgamesh sets out to find his lost friend Enkidu and fight his way back to the land of the living. Along the way, he encounters a rogue's gallery of figures from history, literature, and myth—including H. P. Lovecraft and Robert E. Howard—and travels from the ancient city of Uruk to modern-day Manhattan. But the Afterworld is not so easily escaped.</p>
<p>You never know what adventure is waiting for you in the woods. While exploring the woods near their house, Janine, Maurie, and Bobby Wells find a portal to a magical land. This new land has strange laws and magical creatures, and a looming threat of an encroaching darkness. The children are summoned to appear before the King to receive His protection, but must escape danger and villains along the way. They also meet the mysterious and kind Prince, who helps them to wrestle with justice, forgiveness, and mercy. This middle-grade fantasy novel draws on themes and characters from classics such as Lewis Carroll's Alice in Wonderland, C.S. Lewis' The Lion, the Witch, and the Wardrobe, John Bunyan's Pilgrim's Progress, and George MacDonald's Phantastes and The Wise Woman. Part Christian allegory and part adventure story, this book will get your kids thinking about spiritual and moral concepts.</p>
<p>When my husband and I left India in 1991, we boarded the flight to Singapore with two suitcases and a bag. We planned to be back in two years. The two years have stretched to over twenty years and, now, even when I travel for two weeks with my family which has doubled its numbers, I need four suitcases, four bag packs and a cabin luggage. I do not know when we will return but I do know that I am richer for all the experiences I have had over the years. My children are fortunate to have friends from all over the world and a wide variety of experiences. Everyday I thank God for the blessings he has showered on us and for the fantastic future which is sure to unfurl before us.</p>
<p>Twin sisters are born in a small country town. During an afternoon picnic, a glittery wave of flying butterflies, enveloped them into a wonderful adventure, that will change the vision of their future forever.</p>
<p>As a new generation of activists demands an end to racism, A Place to Land reflects on Martin Luther King, Jr.'s "I Have a Dream" speech and the movement that it galvanized. Winner of the Orbis Pictus Award for Outstanding Nonfiction for Children Selected for the Texas Bluebonnet Master List Much has been written about Martin Luther King, Jr. and the 1963 March on Washington. But there's little on his legendary speech and how he came to write it. Martin Luther King, Jr. was once asked if the hardest part of preaching was knowing where to begin. No, he said. The hardest part is knowing where to end. "It's terrible to be circling up there without a place to land." Finding this place to land was what Martin Luther King, Jr. struggled with, alongside advisors and fellow speech writers, in the Willard Hotel the night before the March on Washington, where he gave his historic "I Have a Dream" speech. But those famous words were never intended to be heard on that day, not even written down for that day, not even once. Barry Wittenstein teams up with legendary illustrator Jerry Pinkney to tell the story of how, against all odds, Martin found his place to land. <p>Winner of the Francis Parkman Prize Changes in the Land offers an original and persuasive interpretation of the changing circumstances in New England's plant and animal communities that occurred with the shift from Indian to European dominance. With the tools of both historian and ecologist, Cronon constructs an interdisciplinary analysis of how the land and the people influenced one another, and how that complex web of relationships shaped New England's communities.</p>
