Discover New York Times bestseller Samira Ahmed's romantic, sweeping adventure through the streets of Paris told in alternating narratives that bridge centuries, continents, and the lives of two young Muslim women fighting to write their own stories. Smash the patriarchy. Eat all the pastries. It's August in Paris and 17-year-old Khayyam Maquet—American, French, Indian, Muslim—is at a crossroads. This holiday with her parents should be a dream trip for the budding art historian. But her maybe-ex-boyfriend is ghosting her, she might have just blown her chance at getting into her dream college, and now all she really wants is to be back home in Chicago figuring out her messy life instead of brooding in the City of Light. Two hundred years before Khayyam's summer of discontent, Leila is struggling to survive and keep her true love hidden from the Pasha who has "gifted" her with favored status in his harem. In the present day—and with the company of Alex, a tr s charmant teen descendant of Alexandre Dumas—Khayyam searches for a rumored lost painting, uncovering a connection between Leila and Alexandre Dumas, Eug ne Delacroix, and Lord Byron that may have been erased from history. Echoing across centuries, Leila and Khayyam's lives intertwine, and as one woman's long-forgotten life is uncovered, another's is transformed.

In Paris, seventeen-year-old Khayyam, a part-Indian, part-French Muslim American, is at a crossroads when a chance encounter plunges her into research about Leila, a girl much like Khayyam who inspired Eug ne Delacroix.

'A father...is a necessary evil.' Stephen Dedalus in Ulysses William Butler Yeats' father was an impoverished artist, an inveterate letter writer, and a man crippled by his inability to ever finish a painting. Oscar Wilde's father was a doctor, a brilliant statistician and amateur archaeologist who was taken to court by an obsessed lover in a strange foreshadowing of events that would later befall his son. The father of James Joyce was a garrulous, hard-drinking man with a violent temper, unable or unwilling to provide for his large family, who eventually drove his son from Ireland. In Mad, Bad, Dangerous to Know, Colm T ibin presents an illuminating, intimate study of Irish culture, history and literature told through the lives and works of Ireland's most famous sons, and the complicated, influential relationships they each maintained with their fathers. 'A supple, subtle thinker, alive to hunts and undertones, wary of absolute truths.' New Statesman 'T ibin writes about writers' families...with great subtlety and sometimes with splendid impudence.' Sunday Telegraph

Boyd Hilton examines the changes in politics and society in the years 1783-1846, showing how the raffish and rakish style of eighteenth-century society, having reached a peak in the Regency, then succumbed to the new norms of respectability popularly known as 'Victorianism'.

She used to be mad about him. In Mad, Bad, and Dangerous in Plaid by New York Times bestselling author Suzanne Enoch, high-spirited Rowena MacLawry has come to the Highlands after a spectacularly successful debut Season in London, and has made it painfully clear that she's outgrown her girlhood obsession with Lachlan MacTier. That's just fine with him, as he never had any intention of marrying the lass anyway! Yet how can he ignore the fact that the once rough and tumble Winnie has become a very fashionable-and incredibly desirable-young woman... And now he's got it bad... Brawny, rugged Lachlan is nothing like the aristocratic English gentlemen who pursued Winnie-with a passion-in London. Three months away was more than enough to show her a world infinitely more glamorous than the untamed Scottish Highlands-and her beloved childhood crush. But now that she's decided to find a prospective husband with a bit more polish, could Lachlan finally appreciate her charms? And is it remotely possible to ignore the wild attraction she feels for him? "One of my very favorite authors." -Julia Quinn

From Victor Frankenstein to Dr. Moreau to Doc Brown in Back to the Future, the scientist has been a puzzling, fascinating, and threatening presence in popular culture. From films we have learned that scientists are either evil maniacal geniuses or bumbling saviors of society. Mad, Bad and Dangerous? puts this dichotomy to the test, offering a wholly engaging yet not uncritical history of the cinematic portrayal of scientists. Christopher Frayling traces the genealogy of the scientist in film, showing how the scientist has often embodied the predominant anxieties of a particular historical moment. The fear of nuclear holocaust in the 1950s gave rise to a rash of radioactive-mutant horror movies, while the possible dangers of cloning and biotechnology in the 1990s manifested themselves in Jurassic Park. During these eras, the scientist's actions have been viewed through a lens of fascination and fear. In the past few decades, with increased public awareness of environmental issues and of the impact of technology on nature, the scientist has been transformed once again—into a villainous agent of money-hungry corporate powers. Mad, Bad and Dangerous? also examines biographical depictions of actual scientists, illuminating how they are often portrayed as social misfits willing to sacrifice everything to the interests of science. Drawing on such classic and familiar films as Frankenstein, Metropolis, and The Wizard of Oz, Frayling brings social and film history together to paint a much larger picture of the evolving value of science and technology to society. A fascinating study of American culture and film, Mad, Bad and Dangerous? resurrects the scientists of late night movies and drive-in theaters and gives them new life as cultural talismans.

From the story of the drummer who had to fly separately from the rest of Oasis because they thought he was bad luck, to the drummer who drummed his way out of prison Never have so many famous drummers been gathered together in one place--this is the ultimate collection of stories about legendary drummers, and they are guaranteed to be stories fans have not heard before. Drummer and writer Spike Webb has spent more than three years meeting fellow drummers in bars, clubs, and cafes, shooting the breeze for a couple of hours, and extracting anecdote after anecdote for posterity. This is truly a labor of love--and somebody had to do it. The stories here are about drummers like Nick Mason of Pink Floyd, Don Powell of Slade, Adam Facek of Babysambles, Steve White who worked with Paul Weller, Topper Headon of the Clash, Woody of Madness, and world-class session players like Toto drummer Simon Phillips. Sometimes hilarious, sometimes poignant, but always entertaining, this is the ultimate insight into what it really means to be a drummer, and an explanation, at last, for what really makes someone do a 20 minute solo.

Ranulph Fiennes has travelled to the most dangerous and inaccessible places on earth, almost died countless times, lost nearly half his fingers to frostbite, raised millions of pounds for charity and been awarded a polar medal and an OBE. He has been an elite soldier, an athlete, a mountaineer, an explorer, a bestselling author and nearly replaced Sean Connery as James Bond. In his autobiography he describes how he led expeditions all over the world and became the first person to travel to both poles on land. He tells of how he discovered the lost city of Ubar in Oman and attempted to walk solo and unsupported to the North Pole - the expedition that cost him several fingers, and very nearly his life. His most recent challenge was scaling the north face of the Eiger, one of the most awesome mountaineering challenges in the world. Sir Ranulph Twisleton-Wykeham-Fiennes OBE, 3rd Baronet, looks back on a life lived at the very limits of human endeavour. 'Even readers with a broadly low tolerance for macho heroism will find themselves gripped . . . compelling' - Time Out
