Nursing Concept Care Maps For
Concept mapping: a tool for improving
patient care. Suzanne Aberdeen Lecturer
in nursing, Monash University, Clayton,
Victoria, Australia. This article reviews the
use of concept mapping as a person-
centred problem-solving aid to assessment,
risk management, care evaluation and care
planning for nurses. Concept maps are
diagrams that are used to organise,
represent and create knowledge, and
provide a useful framework for critical
analysis and problem solving.

Amazon.com: nursing concept map: Books
Concept mapping and mind mapping
have been used in science education since
the 1970s. Nursing students in
undergraduate and graduate classes are
frequently asked to create concept maps or
mind maps around a central concept or
idea. These assignments may be used for
individual or group projects and as a
starting point for graduate student
research.
