Time Travel

Travel In Einstein's

Einstein claims that

for a time travel

journey to be

successful, you would

need to be able to

travel at the speed of

light. So according to

his theory, Einstein

# Download File PDF Time

claims that traveling at a speed close to the speed of light will slow the time, reaching the speed of light will stop time and if it will be ever possible to pass the speed of light, time will reverse.

Time Travel:

Theories, Paradoxes

& Possibilities | Space

More than 100 years ago, a famous scientist named Albert

Einstein came up with an idea about how

time works. He called it relativity. This

theory says that time and space are linked

# Download File PDF Time

together. Einstein also said our universe has a speed limit: nothing can travel faster than the speed of light (186,000 miles per second).
